

About International Personal Finance Plc

International Personal Finance ('IPF') is a leading international provider of responsible consumer finance.

We aim to make a difference in the everyday lives of our customers by offering simple, transparent and personalised financial products. We specialise in providing unsecured credit to people with low to middle incomes who want to borrow small sums and repay in manageable, affordable amounts.

Our two key channel offerings – home credit and digital – allow us to respond to changing consumer behaviour and ensure we provide responsible credit products that our customers want. Our home credit channel serves customers who appreciate the unique qualities of our face-to-face, at-home service provided by our agents, whilst our digital channel serves customers who prefer to take out credit online and repay remotely.

IPF promotes inclusive and responsible lending and believes that meeting corporate and social responsibilities is essential to maintaining a sustainable business. Efficient risk management procedures are underpinned by our business model and responsible approach to lending.

In 2017, IPF reported revenues of £825.8M, issued £1,301.5M credit and delivered pre-tax profits of £105.6M. More than 28,600 employees and agents serve 2.3 million customers across 11 international markets.

IPF listed on the London Stock Exchange in July 2007 and is a member of the FTSE Small-Cap Index. We also took a secondary listing on the Warsaw Stock Exchange in March 2013. Our head office is in Leeds, United Kingdom.
